EDUCATION

MERI COLLEGE OF ENGINEERING & TECHNOLOGY

August 2021 - July 2024, Bahadurgarh, Haryana

Bachelor of Computer Applications

Cumulative **GPA: 6.84/10.0**

Relevant Coursework: Software Engineering; Operating Systems; Algorithms; Web Development

GOVT BOYS SR PUBLIC SCHOOL

March 2019 - March 2021, Paprawat, New Delhi

Major in Computer Science with Pol. Science, English, and History

WORK EXPERIENCE

PSQUARE COMPANY

Software Developer

On-Site

August 2025 – Present

- Built a **scalable ERP system for a construction enterprise**, handling large-scale data for sites, materials, and employees, supporting **10k+ records per module** with high reliability
- Implemented **real-time UI updates** using **WebSockets, MongoDB Change Streams, and RabbitMQ**, eliminating polling and ensuring **zero event loss** with reliable message delivery
- Designed an **incremental backup & recovery system** using a **last-record ID strategy**, enabling chunked data backups, reducing backup time by **~60%**, and allowing seamless resume after network failures
- Developed **custom event-handling mechanisms** to manage complex UI edge cases using a **frontend local database approach**, improving data consistency and user experience
- Automated critical workflows using **cron jobs and Gmail notifications**, reducing manual operations by **40%** and ensuring timely system-driven task execution
- Implemented **role-based socket event filtering**, validating table-level update permissions before publishing events to **RabbitMQ**, ensuring users received only **authorized, relevant real-time updates** and reducing unnecessary event traffic by **~30%**

TRUWIX

Software Developer

On-Site

November 2024 – July 2025

- Engineered full-stack web applications using React.js, Node.js, Express.js, and MongoDB, contributing to a 15% improvement in application performance through code optimizations
- Designed and implemented RESTful APIs using Mongoose, reducing database query response time by 20% through indexing and schema optimizations
- Skills Used - **React.js, Node.js, Next.js, Express.js, MongoDB, REST APIs, JWT, Bcrypt, Cloudinary**

CRAZY WEBDEV TECHNOLOGIES

Software Developer Intern

Remote

January 2024 – June 2024

- Contributed to enhancing UI/UX using React.js and TailwindCSS, improving user experience by 20%
- Built responsive frontend components and integrated backend APIs using Node.js and Express.js
- Optimized MongoDB performance through query indexing and backup implementation
- Gained hands-on full-stack experience while working in an agile development team

ADDITIONAL

Technical Skills: Proficient in Javascript, HTML/CSS, TailwindCSS, ReactJs, NextJs, Redux Toolkit, NodeJs, Express, Typescript, MongoDB, MySQL, PostgreSQL, Redis, RabbitMQ, Docker, AWS (EC2, Lambda, S3) Render, Vercel.

Languages: Fluent in Hindi; Conversational Proficiency in English.
